

GENESIS

GENESIS G70

GENESIS G70

GENESIS seeks to bring positive changes to customers' lives.

As the epitome of human-centered technology and advanced driving, we are committed to touch customers' lives with novel experiences at every moment.

Another GENESIS is born, embodying the philosophy, design direction, and technology of the brand.

Download the augmented reality (AR) smartphone application. Scan images on pages that feature the icon on the left to get more detailed information and images of G70 in AR.

ATHLETIC ELEGANCE

Balance and harmony of details make style perfect.

From the synergy of dynamic, elegant design and sporty sensibilities to the combination of thoughtful, cutting-edge technology and sophisticated interior, G70's details are truly amazing.

2.0T Supreme with full options (Beige and green two-tone)

2.0T Supreme with full options (Graceful gray)

2.0T Supreme with full options (Graceful gray)

Sleek headlamps, combined with wide hood lines and character lines, create a lasting impression.
Elegant side lines conceive rich volumes that convey impressive power.
A spirited trunk end and sporty bumpers complete G70's dynamic beauty.

3.3T Sport Supreme with full options (Lapis blue)

3.3T Sport Supreme with full options (Lapis blue)

Headlamps with black and copper bezels and dark chrome garnishes are instantly eye-catching. 19" wheels and Brembo brakes spur the excitement of high-performance driving. Bold and dynamic bumpers, fitted with dual mufflers, ascertain the unique presence of 3.3T Sport.

3.3T Sport Supreme with full options (Lapis blue)

2.0T Supreme with full options (Beige and green two-tone)

2.0T Supreme with full options (Beige and green two-tone)

2.0T Supreme with full options (Beige and green two-tone)

Premium quilted seats provide better waist and shoulder support with reinforced bolsters, providing the ultimate in comfort. The interior filled with delicately stitched fine leather and exquisite real aluminum finishes exude GENESIS' values and philosophy.

3.3T Sport's distinctive sensibility and value is evident from its stitch colors and patterns alone. Luxurious details noticeable at every touch and a wide layout of features that surround the driver stir the urge to drive from the moment one steps into a 3.3T Sport.

3.3T Sport Supreme with full options (Sport red)

3.3T Sport Supreme with full options (Sport gray)

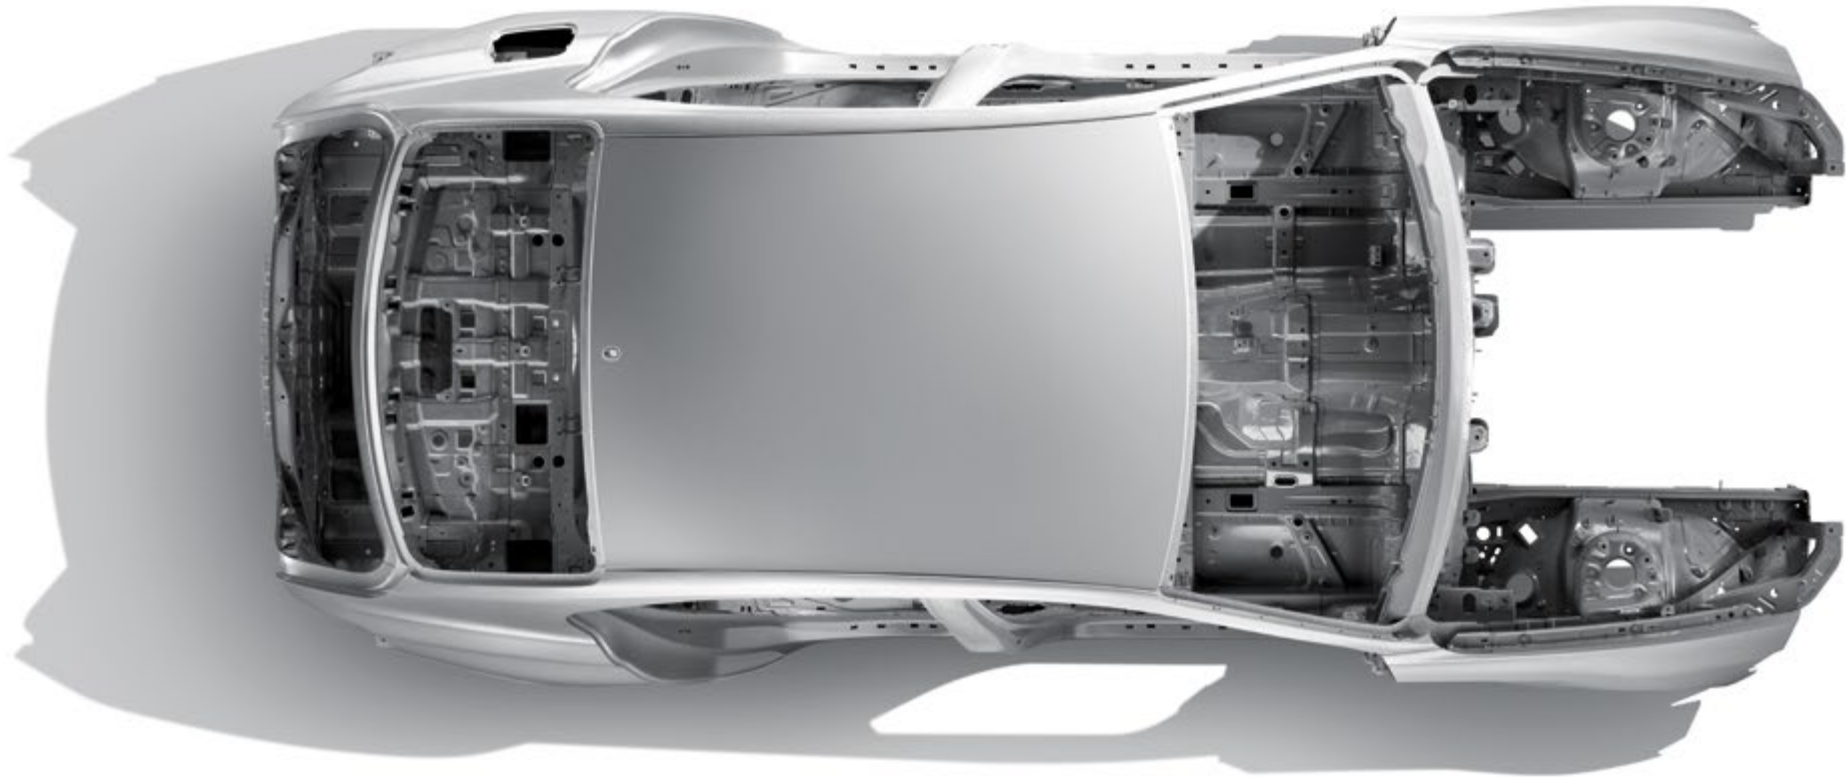

BALANCED PERFORMANCE

True performance is defined through details.

Power and safety optimized for dynamic driving, cutting-edge technology that borders on futuristic autonomous driving, and convenience features created with drivers' comfort foremost in mind... G70's impeccable details are awe-inspiring.

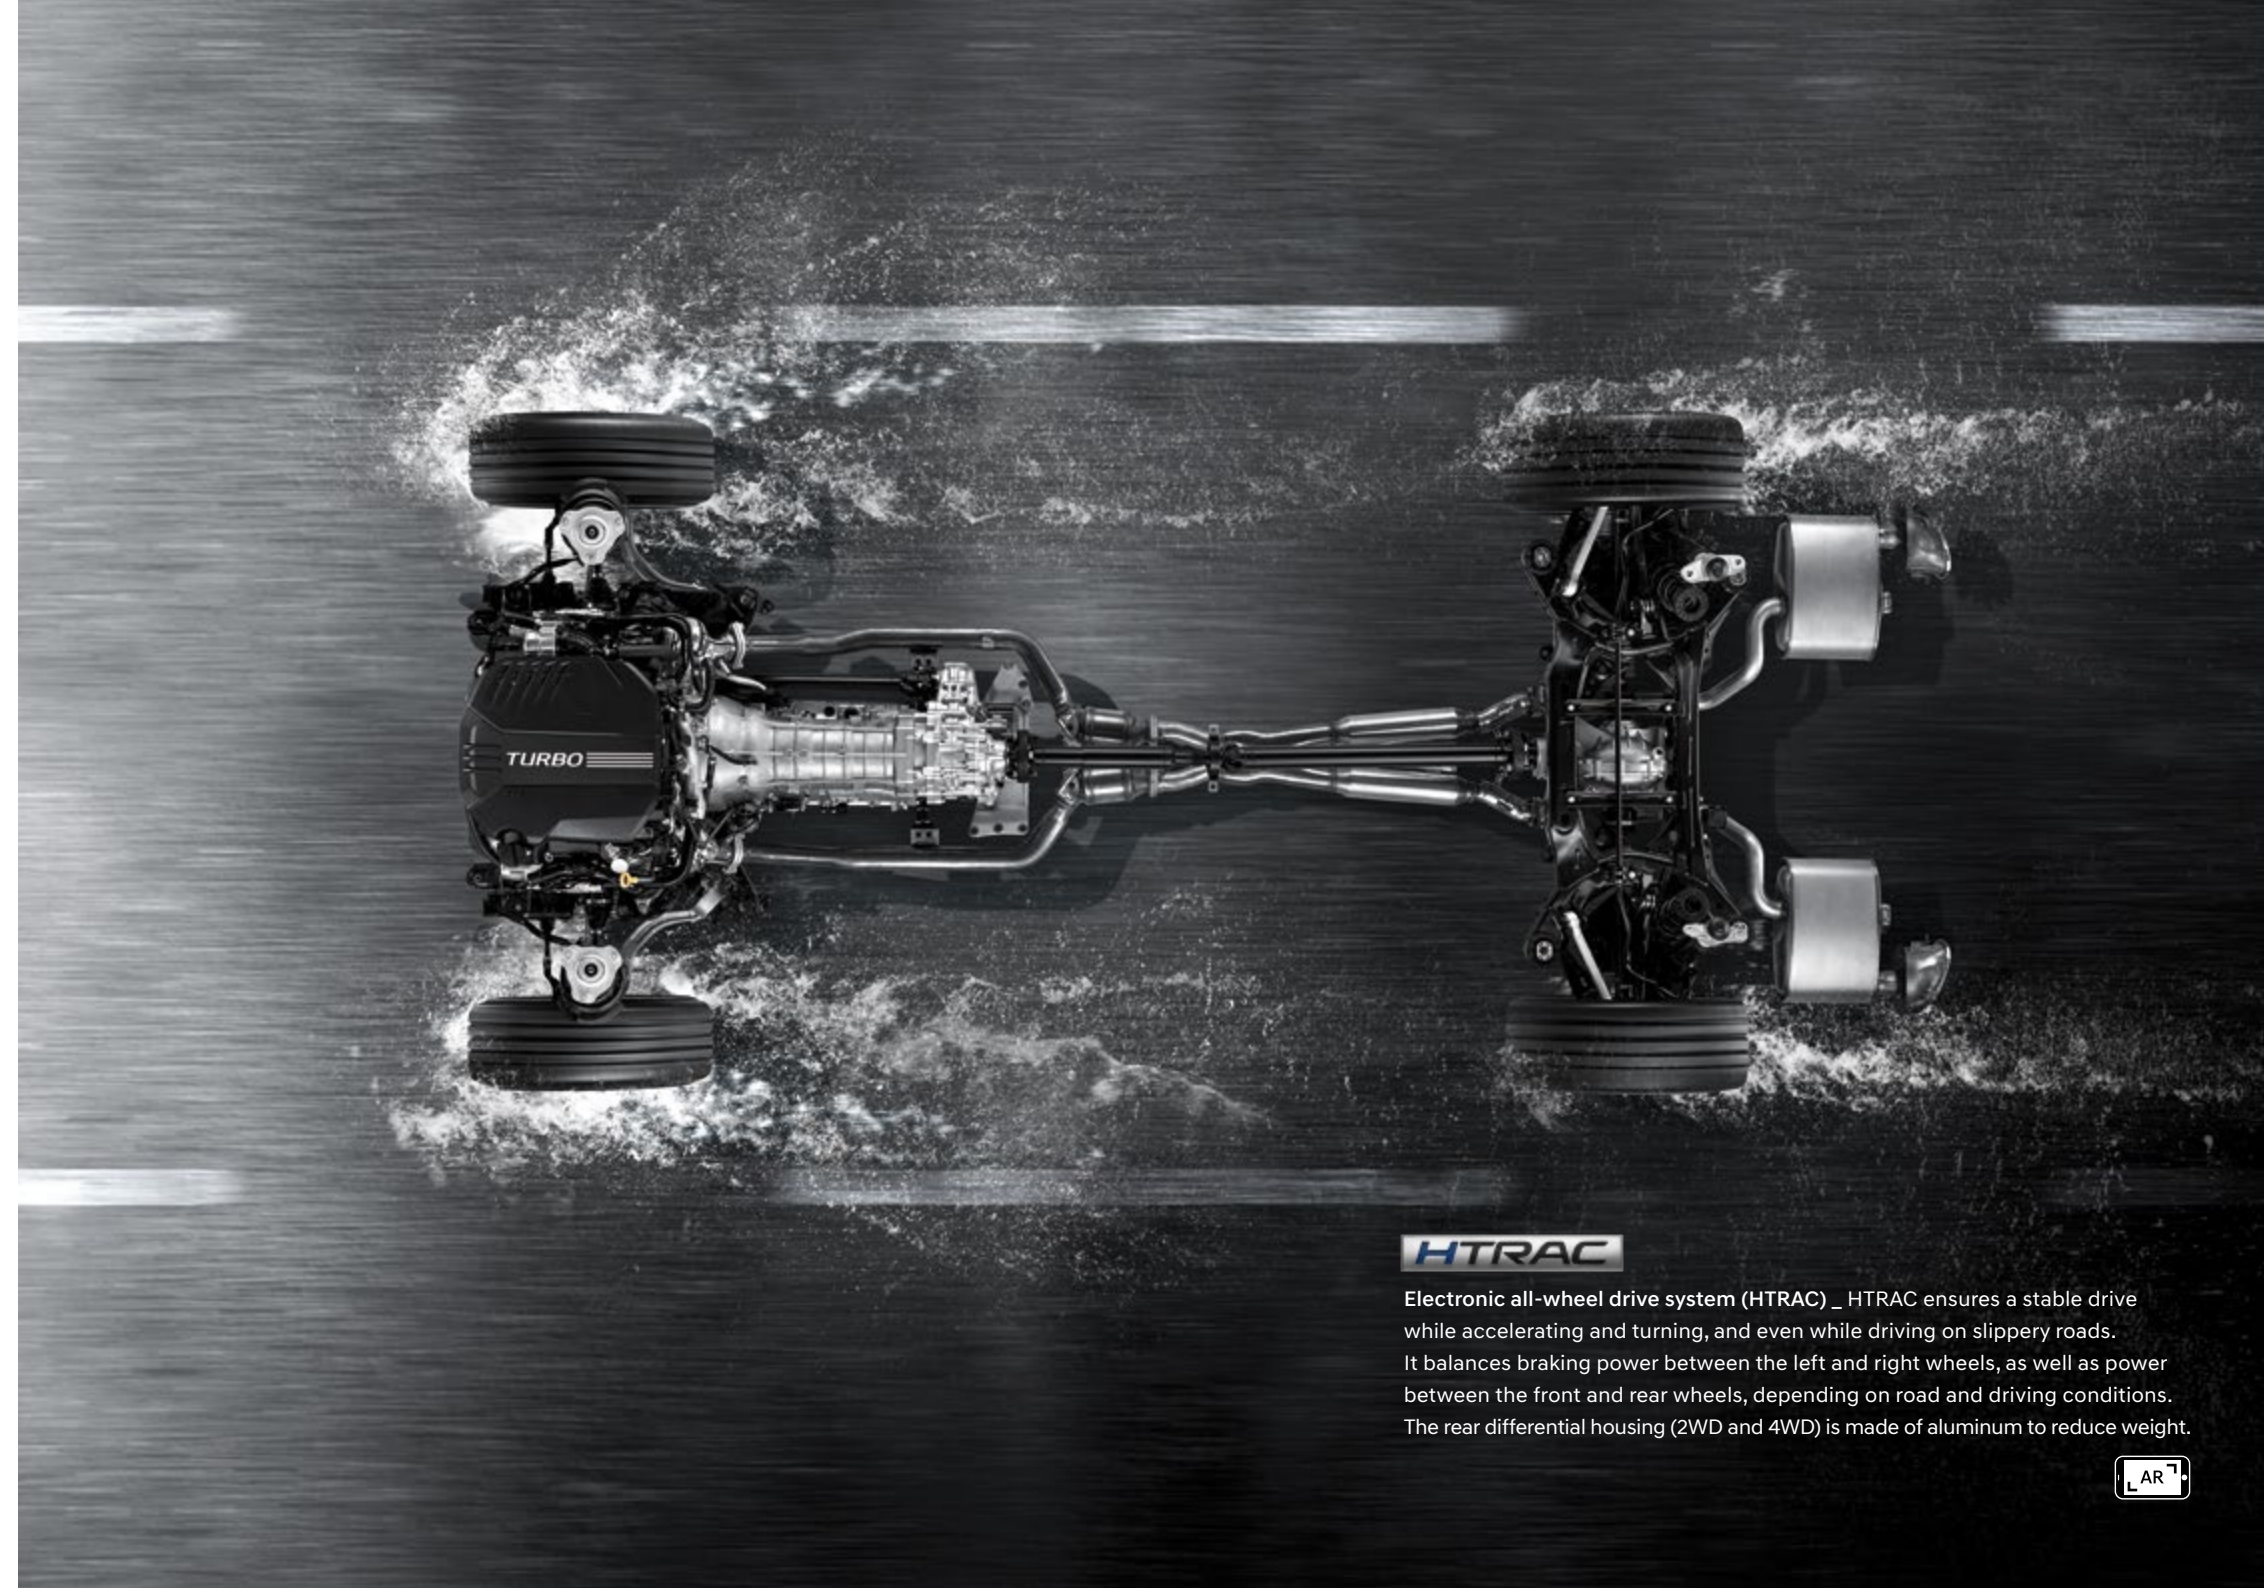

THE MELDING OF A SOLID BODY AND AN ELECTRONIC ALL-WHEEL DRIVE SYSTEM

Advanced high strength steel (AHSS) _ Genesis offers the highest degree of car body rigidity in its class by increasing the average strength of the body, expanding the use of structural adhesives, and strengthening joint structures. It reduced the weight of the hood, front bumper beam, engine room strut bar, and package tray center panel by using aluminum and maximized passenger safety with a body structure that effectively absorbs shocks in the event of a collision.

※ Advanced high strength steel: Classification of Advanced high strength steels

HTRAC

Electronic all-wheel drive system (HTRAC) _ HTRAC ensures a stable drive while accelerating and turning, and even while driving on slippery roads. It balances braking power between the left and right wheels, as well as power between the front and rear wheels, depending on road and driving conditions. The rear differential housing (2WD and 4WD) is made of aluminum to reduce weight.

AR

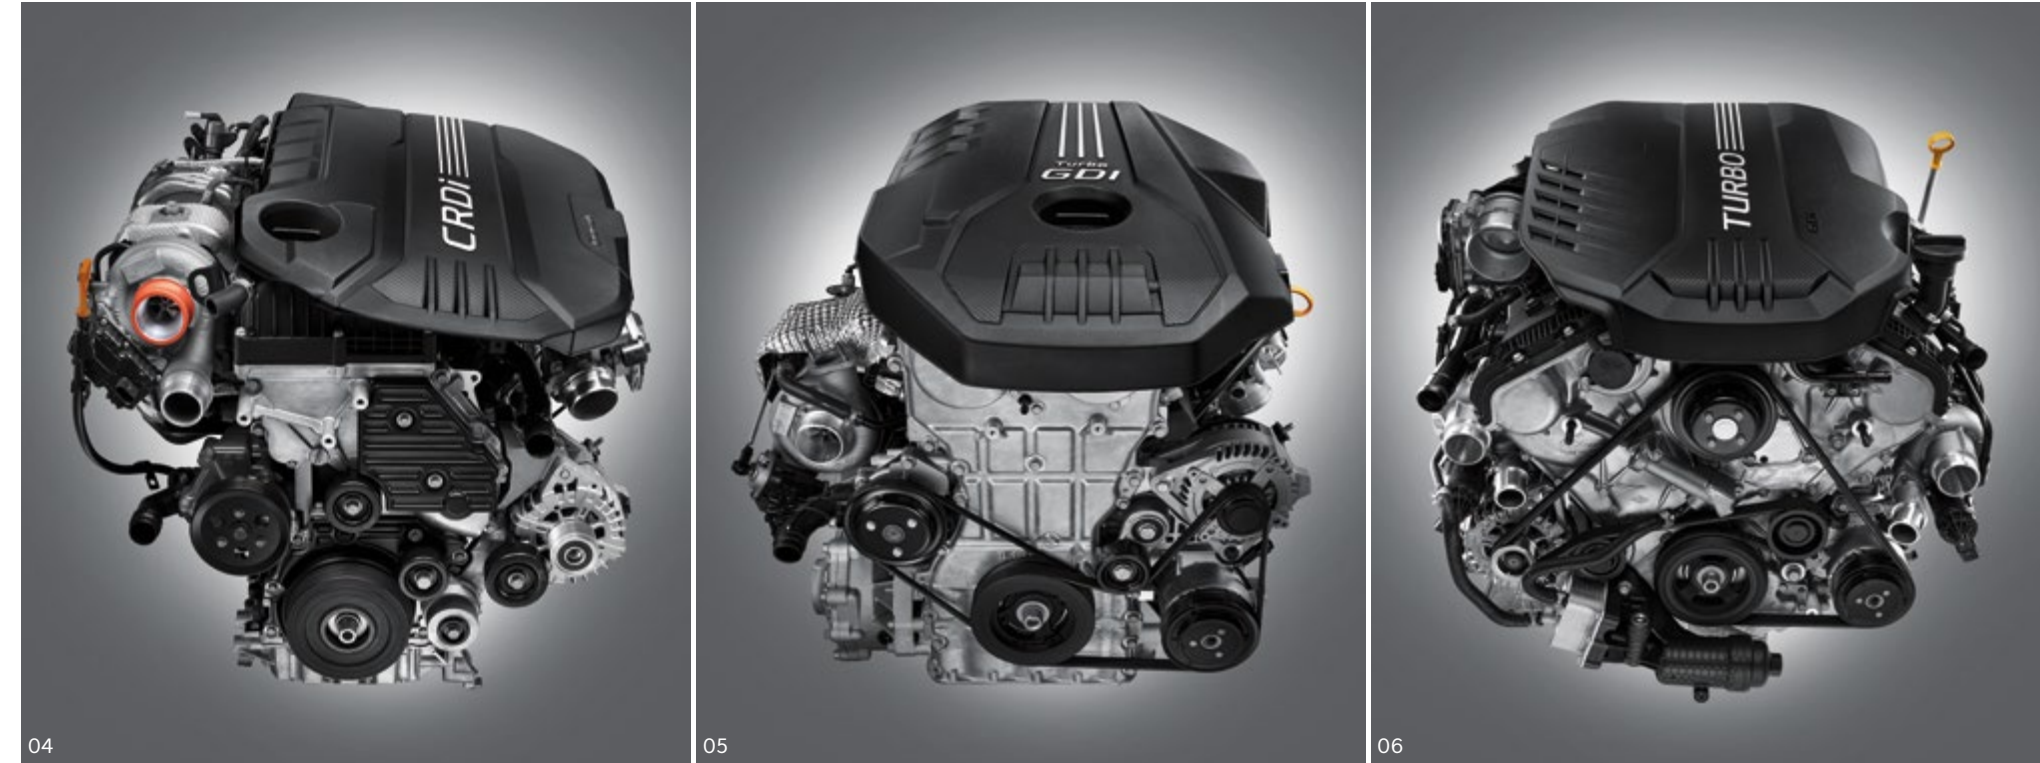

PERFECT SYNERGY BETWEEN EXPLOSIVE POWER AND AERODYNAMIC PERFORMANCE

01. Aerodynamic performance _ Ground clearance, vehicle height, rear glass angle, and the height and slanting of the trunk have been carefully fine-tuned. In addition, a full length under cover that shields the lower part of the vehicle minimizes air resistance and delivers best-in-class aerodynamic performance (drag coefficient of CD 0.28).

02. Drive mode control system _ Drivers can switch between Comfort, Eco, Sport, Smart, or Custom driving modes according to personal preference or driving situation. G70 offers exceptional driving and riding comfort by optimizing power distribution for each driving mode.

03. 8-speed automatic transmission / Shift-by-wire (SBW) _ A 2nd-generation rear-wheel 8-speed electronic automatic transmission with improved weight and efficiency renders a sophisticated response and smooth transmission. The Electronic shift-by-wire lever is light and compact, and a cushion-like finish on the top of the knob offers a luxurious grip.

04. 2.2 diesel engine _ A compound purifying catalyst reduces exhaust fumes and nitrogen oxides. A high-efficiency turbocharger, variable oil pump (2-wheel drive), and reinforced noise absorption ensure stable power, outstanding fuel economy, and cabin silence.

202 Maximum output PS/3,800 rpm **45.0** Maximum torque kg-m/1,750~2,750 rpm

05. 2.0 turbo gasoline engine _ A low-to-mid-speed twin-scroll turbocharger, electric CVVT, and continuously operating VCM generate high torque even at low speeds, balancing drivability and silence to maximize driving pleasure.

252 Maximum output PS/6,200 rpm **36.0** Maximum torque kg-m/1,400~4,000 rpm

※ Maximum output with the Sport package: 255 PS / 6,200 rpm

06. 3.3 V6 turbo gasoline engine _ A middle phase air intake CVVT system and twin-turbo with an integrated exhaust head and electronic thermostat render the dynamic driving sensation of a high-performance sports sedan.

370 Maximum output PS/6,000 rpm **52.0** Maximum torque kg-m/1,300~4,500 rpm

THE UNIQUE SYSTEMS AND DIFFERENTIATED DRIVING EXPERIENCE OF 3.3T SPORT

01. 7" TFT LCD cluster _ The engine oil temperature gauge, torque gauge, turbo booster gauge, lap timer (shows the best and the 3 most recent lap times), and G-Force (shows the current top, bottom, left, and right gravity acceleration or G values) can be seen through the cluster which also amplifies the enjoyment of high-performance driving with differentiated content.

02. Sports suspension (Electronic control) _ Driving stability and ride comfort are achieved simultaneously with shock absorbers that adjust damping force according to road surface and driving conditions. The use of aluminum on the sports suspension (electronic control) and the lower arm of the amplitude-sensitive damper suspension reduces weight.

03. Brembo brakes _ To deliver the differentiated image and overpowering driving performance of a high-performance sports sedan, 3.3T Sport is equipped with Brembo brakes, offering superior quality and braking performance.

※ In addition to 3.3T Sport, specifications above apply to the 2.0T Sport package

GENESIS' ACTIVE SAFETY CONTROL COMES EVEN CLOSER TO FUTURISTIC AUTONOMOUS DRIVING TECHNOLOGY

01. Highway driving assist (HDA) _ An automated system helps control the speed of the car and keep the vehicle in the lane while driving on the highway by using comprehensive information such as distance from the car ahead, lanes, and navigation-based speed limit, eliminating the need to step on the brakes or the accelerator during long distance travel or while driving through congestion.

A. Longitudinal (headway distance) control B. Lateral (lane keeping) control
C. Highway-specific control

02. Driver attention warning (DAW) _ A comprehensive system analyzes driving patterns of the driver and the vehicle's position in the lane to operate a 5-stage warning system. It posts pop-up messages and sets off warning signals to encourage the driver to rest when it detects driver fatigue or inattentive driving.

※ To ensure safety, drivers should hold on to the steering wheel while using the Highway driving assistance function.
※ Driving assist features (such as Forward collision-avoidance assist) are meant to help drivers on specific high-risk driving situations. Please refer to the user's manual for operational details.

03. Blind-spot collision warning (BCW) _ Two radars installed on the rear of the vehicle detect and warn the driver of fast-approaching vehicles in blind spots or the back of the car.

04. Lane keeping assist (LKA) _ A camera installed on the front of the vehicle monitors and alerts the driver of accidental lane departures before steering the vehicle back into the lane.

05. Smart cruise control with stop & go (SCC w/ S&G) _ Sensors automatically maintain a speed set by the driver while keeping a safe distance from cars in front. In the event of a full stop, the vehicle restarts automatically after 3 seconds once the car in front departs. In addition, the vehicle decelerates temporarily if cruising above the navigation-based speed limit in a highway warning zone.

ADVANCED TECHNOLOGY THAT COMBINES SAFETY AND CONVENIENCE

01

01. Forward collision-avoidance assist (FCA) _ Comprehensive monitoring of front radar and camera signals warns the driver of potential forward collisions or collisions with pedestrians, applying the brakes if warranted. This high-tech preventive safety system takes into consideration not only the safety of other vehicles but of pedestrians as well.

02

02. Low beam assist-dynamic (LBA-D) _ Headlamps steer automatically to the left or the right together with the steering wheel, improving visibility and reducing blind spots while driving at night.

03

03. High beam assist (HBA) _ Sensors monitor headlamps of oncoming vehicles and brightness of surroundings to switch between high beam and low beam automatically, promoting the safety of the driver as well as oncoming vehicles while driving at night.

04

05

04 & 05. Head-up display (HUD) _ Vehicle information is projected on the front windshield through an 8" image with optimized brightness for excellent visibility even during the day.
Parking distance warning (PDW F/R) _ Sensors mounted on the front and rear of the vehicle track distance from obstacles and sound an alarm to assist drivers while parking.

06

06. Around view monitor (AVM) _ 4 HD cameras mounted on the front, sides, and rear of the vehicle show the surroundings in real time through the AVN screen. Markings on the video show distance from obstacles in the front and the back, and video projections of the back show the vehicle's anticipated trajectory while moving in reverse.

07

07. 9-airbag system _ Advanced airbags in the driver and front seats regulate the degree of inflation and timing of deployment according to the occupant's weight, position, and force of collision. 9airbags, including a driver's knee airbag, front and rear side airbags, and curtain airbags, minimize injuries.

CONVENIENCE THAT RESULTS FROM THE THOUGHTFUL ORCHESTRATION OF DETAILS

01.
Server-based speech recognition system _ A server-based speech recognition service that uses Kakao's integrated AI platform (Kakao I) replaces the cumbersome process of navigating through the navigation screen to search for business names, addresses, and nearby gas stations with simple voice recognition.

02 & 03.
Smartphone connectivity (Apple CarPlay, MirrorLink support) _ An integrated infotainment system connects with smartphones to enable use of smartphone functions (navigation, audio, telephone, etc.).
Wireless smartphone charging system _ Smartphones can be conveniently charged without connecting wires and drivers who vacate the vehicle without their smartphones are given an alert.

04.
Lexicon premium sound _ 15 Lexicon speakers with the latest QuantumLogic surround sound technology are positioned optimally for the best acoustic performance. Real stainless steel midrange speaker grilles reproduce a clear voice range that is close to the original sound. Subwoofers installed on the bottom of the driver's seat and front seat provide the deepest and richest bass sound experience.

05.
Intelligent driver's seat _ An 8-way power seat, 4-way power lumbar support, 2-way power bolster, and 2-way electric cushion extension optimize seat adjustments to conform to the driver's body and posture and maximize comfort. Seat positions are displayed on the AVN screen for more convenient operation.

Smart posture control system _ Seat, steering wheel, outside mirror and head-up display positions are automatically adjusted by feeding the driver's biometric information (height, seated height, and weight) into the system, which also analyzes the driver's driving posture. Health-related information, such as lumbar load and strain under the present driving posture can also be checked at any moment.

06.
Seat folding system (6:4 type) _ Ergonomic seat design provides a comfortable ride in long distance travel. A practical, 6:4 split, rear seat folding function facilitates the loading of long leisure equipment or bulky luggage.

※ Kakao I is Kakao's integrated AI platform that combines diverse technologies such as voice engine, visual engine, speech engine, and recommended engine. ※ Apple CarPlay™ is a registered trademark of Apple Inc.
 ※ Compatibility between the Smartphone wireless charging system and specific smartphone models has to be verified with the manufacturer.

Remarkable details convey the true value of GENESIS G70.

ADVANCED / SUPREME

225/50R17 Bridgestone tires & wheels
(basic specification for 2.2D)

225/45R18 Bridgestone tires & wheels

2.0T Supreme (Carbon metal)
with HTRAC and Wide sunroof

2.2D Supreme (Racing gray)
with Wide sunroof, Signature design selection 2, and Genesis active safety control package 2

Full LED headlamps

Glossy chrome-coated radiator grille

Detachable LED turn signals (front)

Outside mirrors with LED turn signals

Double-jointed soundproof glass (front)

7" TFT LCD cluster

Heated steering wheel

8" navigation system

Dual full auto air conditioning system

Electric parking brake (EPB)

MEMBERSHIP

MOBILITY CARE

※ Except for warranty coverage, all services are only for original buyers who enroll in the Genesis Membership Program, available to individual, corporate, and private or corporate rental/lease clients.

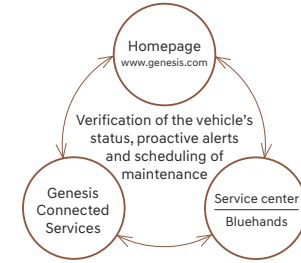

5 year, 100,000 km warranty
- General and body parts, as well as engine/powertrain components

Home-to-home pickup & delivery service
- 3.3T Sport and 2.0T: 6 times; 2.2D: 3 times

Quick and convenient vehicle maintenance through Genesis Connected Services and Home-to-Home service

3 year, 60,000 km free replacement of key consumables
- Engine oil set (3.3T Sport and 2.0T: 6 times; 2.2D: 3 times), air conditioner filters (3 times), wiper blades (2 times), navigation updates (3 times)

5-year complimentary subscription to Genesis Connected Services (basic services)
- Complimentary basic services: remote control, security, vehicle management, navigation
- The concierge service in Genesis Connected Services is a paid additional services.

- 24/7 service companion
Vehicle diagnosis through Genesis Connected Services and counseling through MMS and website (service appointment suggestion when care is needed).

- Preemptive maintenance
Notification and scheduling of regular maintenance and parts replacement through Genesis Connected Services based on the vehicle's mileage.

GENESIS CONNECTED SERVICES

Experience the extraordinary value of advanced technology that protects the car and driver and provides a more comfortable and safer life.

Control your vehicle with your smartphone (Remote control)
The mobile revolution brings imagination into reality. Preset a destination and pre-cool a parked car remotely on a hot summer day. Drive in comfort at all times with Genesis Connected Services (basic services).

Always there when needed (Safety and security)
Genesis Connected Center is awake 24/7, 365 days a year. If an accident causes your airbag to deploy, Genesis Connected Center will automatically locate your vehicle, try to establish contact, and mobilize police, medical care, and insurance as deemed necessary.

Automatic breakdown detection and convenient scheduling of maintenance (Vehicle maintenance)
Genesis Connected Services monitors the vehicle for breakdowns in real time and conducts regular vehicle diagnosis on specific dates. If breakdowns are detected, professional counseling is made readily available to conveniently schedule maintenance service on a desired date and location.

Smart destination search and route navigation using real-time traffic information (Navigation)
One-step, voice activated search (One shot) offers quick and convenient destination searches and navigates the vehicle quickly and conveniently to the desired destination avoiding congestion using real-time traffic information.

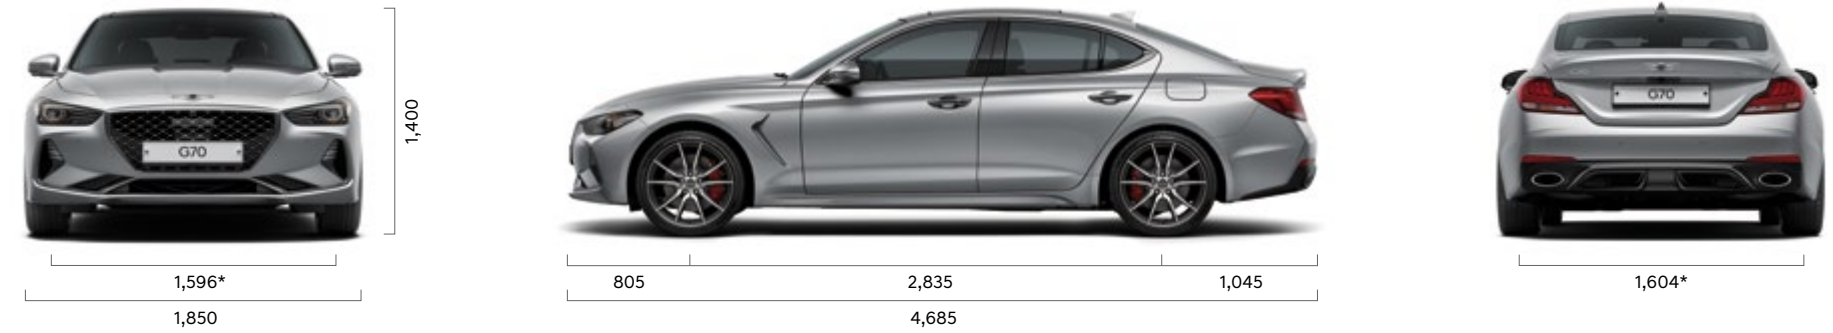

*Kakao I™ is Kakao's integrated AI platform that combines diverse technologies such as voice engine, visual engine, speech engine, and recommended engine.
*Kakao i inside™ is a technology branding logo applied to products or services that make full or partial use of Kakao I's technology.
*Kakao I™ certification is given to products that use "Kakao I" technology that have proven to provide users with novel experiences or made life more convenient.

A personal assistant for a convenient car life (Concierge)
Voice-controlled destination search: Pressing the Genesis Connected Services button on the Inside rear-view mirror and stating a desired destination will prompt the "smart assistant" to automatically set up the navigation system and guide you safely and conveniently.

- **Basic services:** remote control, security, vehicle management, navigation, Genesis Connected Services App - **Paid additional services:** Concierge

Genesis Connected Services Customer Service: 1899-5100

SPECIFICATIONS

Units: mm, * based on 245/40R19 tires in the front and 275/35R19 tires in the back

※ The government-certified standard fuel consumption value was measured using the newly reinforced measurement method.

Model	Drivig system	Tire	Curb weight (kg)	Grade	CO ₂	Fuel efficiency reported to the government (km/ℓ)		
						City	Highway	Combined
2.0T (1,998cc, 8-speed automatic)	2WD	18"	1,595	4	156	9.4	12.8	10.7
		19"	1,630	4	161	9.2	12.4	10.4
	AWD	18"	1,665	4	168	8.8	12.0	10.0
		19"	1,695	4	177	8.4	11.3	9.5
2.2D (2,199cc, 8-speed automatic)	2WD	17"	1,690	2	124	13.5	17.9	15.2
		18"	1,710	2	130	13.1	16.7	14.5
	AWD	17"	1,765	3	140	12.2	15.7	13.6
		18"	1,785	3	141	12.2	15.6	13.5
3.3T Sport (3,342cc, 8-speed automatic)	2WD	19"	1,705	5	188	7.9	10.6	9.0
	AWD	19"	1,775	5	197	7.4	10.5	8.6

Maintain constant speeds for driving efficiency. | Fuel efficiency figures are for standard mode. Actual figures may vary depending on factors such as road conditions, driving patterns, vehicle load, ambient temperature, and maintenance status. | Vehicles portrayed in this publication may have optional features and differ from actual vehicles purchased. | Options, colors, and specifications shown in this publication may change to improve the appearance and performance of the vehicle. | For detailed information and notes on the specifications, please refer to the users' manual. | Engine performance figures are net values. Net values are based on a new measuring system legally imposed by the Korean Ministry of Transportation since 1997 that takes into account the resistance of exhaust gases, which may lead to a slight decrease from conventional gross output figures. | Leather seats make partial use of artificial leather. | **GENESIS is sold exclusively through regional branches, official distributors, and certified car masters to ensure reliable product quality and pricing nationwide.** | Failure to use genuine parts specified by GENESIS (engine oil, transmission oil, etc.) or usage of low-grade fuel may result in critical damage to the vehicle. | For more information on new technology and new specifications presented in this publication, please refer to the users' manual.

This publication shows top models and options to help customers' understanding.

Options apply differently according to the trim, package, power train, and exterior color selected. Please refer to the monthly price list for detailed specifications for each model.
